SUMMARY OF RESULTS MATRIX

EXPERTIZERS since its first version offers matrices results exportable to all analysis products from Business Intelligence (BI) and infocentre market. A minimum course spreadsheets. The export formats are. TXT and. XLS.

Due to popular demand, EXPERTIZERS is now able to produce directly a panel graphics. This panel is intended to expand according to your requests.

Here is a reminder of matrices available. All are exported immediately.

ACCESS TO GRAPHICS

The graphs are available through the choice 'Activity by variable X'. Levels analysis parameters are (two levels + level optional activity).

For the moment, the graphics are activated only on the first two levels set.

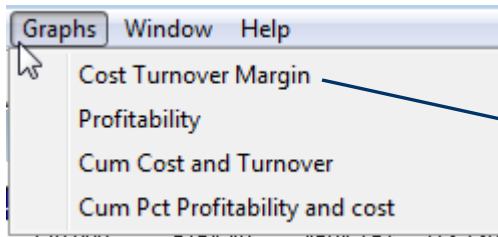

Remember:

The graphics are only available if the data event contain variable 'caht' (french) or 'turnover' (english)
